

“FINISH FAILURES” SYMPOSIUM LEARNING OBJECTIVES

November 19-20, 2020 | Presented by CSI/AIA East Bay Chapters | 4 HSW LU's

AIA
East Bay

1. **Paint Failures**

Stacie Anderson LaGrange, Rose Garrison, & Ken Hogben | Benjamin Moore Paints

Participants will be educated on failures of paints and coatings by Panel Discussion with industry representatives, and how to meet local health requirements for protection of applicators and the public.

2. **Tile & Stone Failures**

Rich Galliani, Licensed Tile Contractor | Technical Director. TSC Northern California

Participants will note tile and stone failures in exterior walls by failing installation methods creating safety hazards; new standards by the Tile & Stone Council of Northern CA.

3. **Stucco & EIFS Cladding Failures and How to Avoid**

Christine Diosdado, P.E., MS, CSI | Associate Principal, Simpson Gumpertz & Heger

Attendees will learn why stucco and EIFS systems fail, and possible solutions by expansion joints and installation procedures; coatings vs integral color.

4. **Decay in Exterior Elevated Elements**

Leslie Scheppelmann & Henry Sweat | Wiss, Janney, Elstner Associates

Attendees will observe decay in exterior elevated elements such as balconies, which commonly indicates structural damage, and note resulting changes in local Building Codes for public safety.
